DURABLE RV VALVE SOLUTIONS MADE IN THE USA

All of our valves are designed, tested, manufactured and assembled in our Hartsville, SC facility.

# MANRV101-RF 4 Function Fill Valve

Retro-Fit for 200RV & 200RV-BL

The MANRV101-RF RV Water Service Panel features an inlet 4 function (3 position) low lead brass valve that is used for filling the holding tank, pressurizing the fixtures when you have a water supply, pump from the tank during dry camping and help you with winterizing and sanitizing your unit.

## FUNCTIONS

### 4 Function Fill Valve Supply

- CITY FIXTURES - Supply water to the fixtures directly from the city water hook up
- DRY CAMPING - Supply water to the fixtures directly from the on-board tank.
- TANK FILL - Supply water to the holding tank from the city water hook up.
- SANITIZE / WINTERIZE - Supply sanitizing / winterizing fluid to the fixtures from inlet connection (via pump).

## FEATURES & SPECIFICATIONS

- Check valve to prevent any failures from the pump
- 5 Year Limited Warranty
- Durable brass valves
- 100 PSI Max

# MANRV102-RF 4 Function Fill Valve

Retro-Fit for 200RV-PT & 200RV-WHB

The MANRV102-RF RV Water Service Panel features an inlet 4 function (3 position) low lead brass valve that is used for filling the holding tank, pressurizing the fixtures when you have a water supply, pump from the tank during dry camping and help you with winterizing and sanitizing your unit. The MANRV102-RF also includes a 2 function (2 position) low lead brass water heater bypass valve. Normal position when the unit needs hot water to fixtures. Bypass position for maintenance on hot water heater and third position for sanitizing your fresh water tank.

## FUNCTIONS

### 4 Function Fill Valve Supply

- CITY FIXTURES - Supply water to the fixtures directly from the city water hook up
- DRY CAMPING - Supply water to the fixtures directly from the on-board tank.
- TANK FILL - Supply water to the holding tank from the city water hook up.
- SANITIZE / WINTERIZE - Supply sanitizing / winterizing fluid to the fixtures from inlet connection (via pump).

### 2 Function Water Heater Bypass

- NORMAL - Supply cold water to the water heater and supply hot water to the fixtures.
- BYPASS / DRAIN - Divert cold water to the "HOT" fixtures isolating the water heater.

## FEATURES & SPECIFICATIONS

- Check valve to prevent any failures from the pump
- 5 Year Limited Warranty
- Durable brass valves
- 100 PSI Max

# MANRV102-1RF 4 Function Fill Valve

Retro-Fit for 200RV-WHBSD

The MANRV102-1RF RV Water Service Panel features an inlet 4 function (3 position) low lead brass valve that is used for filling the holding tank, pressurizing the fixtures when you have a water supply, pump from the tank during dry camping and help you with winterizing and sanitizing your unit. The MANRV102-1RF also includes a 3 function (3 position) low lead brass water heater bypass valve. Normal position when the unit needs hot water to fixtures. Bypass position for maintenance on hot water heater and third position for sanitizing your fresh water tank.

## FUNCTIONS

### 4 Function Fill Valve Supply

- CITY FIXTURES - Supply water to the fixtures directly from the city water hook up
- DRY CAMPING - Supply water to the fixtures directly from the on-board tank.
- TANK FILL - Supply water to the holding tank from the city water hook up.
- SANITIZE / WINTERIZE - Supply sanitizing / winterizing fluid to the fixtures from inlet connection (via pump).

### 3 Function Water Heater Bypass

- NORMAL - Supply cold water to the water heater and supply hot water to the fixtures.
- BYPASS / DRAIN - Divert cold water to the "HOT" fixtures isolating the water heater.
- SANITIZE FRESH WATER TANK - Supply sanitizing fluid to the tank from inlet connection (via pump).

## FEATURES & SPECIFICATIONS

- Check valve to prevent any failures from the pump
- 5 Year Limited Warranty
- Durable brass valves
- 100 PSI Max

# Custom Water Service Panels Keystone

## The Ultimate Montana - One of One

The Flipping Nomad, Cortni Armstrong, has been working on a huge collaboration with Keystone RV to build the Ultimate Montana. She started with a Keystone Montana shell and designed a stunning one of a kind living space. Besides the beautiful design the Ultimate Montana is equipped for the ultimate boondocking experience. Our engineer worked to create a custom water service panel that includes a built in pump switch, air compressor switch, gauge and outlet, all brass low lead mixing shower valve with outlet, water heater bypass valve, four function water fill valve, black tank flush and storage compartment.

## Custom Design Services

Our team of engineers work diligently with our customers to meet their specific needs, whether their project requires modification to existing products or creating a new product.
